Overview of Report

This report is prepared pursuant to T.C.A. §49-4-903(b), which directs the Tennessee Higher Education Commission (THEC) to:

"...provide assistance to the general assembly and to the Tennessee Student Assistance Corporation (TSAC) by researching and analyzing data concerning the scholarship and grant programs created under this part, including, but not limited to, student success and scholarship retention."

The Tennessee Education Lottery Scholarship (TELS) program was designed to meet the unique needs of the State of Tennessee, while also incorporating the hallmark elements of existing merit-based aid programs in other states. Developed through a process involving elected officials and members of the academic community, the TELS program aims to address the following broad public policy objectives:

- Improve academic achievement in high school through scholarship incentive (GAMS, HOPE, Aspire);
- Provide financial assistance as a means of promoting access to higher education (Aspire, Access);
- Retain the state's "best and brightest" students in Tennessee colleges and universities (GAMS); and
- Enhance and promote economic and community development through workforce training (Wilder-Naifeh).

Technical Notes & Definitions

- Unless otherwise noted, data contained within this report are from the Tennessee Student Assistance Corporation (TSAC) e*GRandS system and the Tennessee Higher Education Commission's (THEC) Student Information System (SIS).
- The current report uses TSAC verified e*GRandS data to determine all TELS-eligible students and is supplemented with THEC data, where applicable (e.g., graduation data).
- Students are identified by higher education sector and scholarship type **at college entry**, unless otherwise noted.
- Students with inadmissible or missing data values are reported in the Unknown category.
- Unless otherwise noted, all tables and figures include TBR Universities¹, TBR Community Colleges, UT Campuses, and private institutions, and HOPE, GAMS, Aspire, and Access programs.
- The "6-year graduation rate" is defined as the percent of TELS first-time freshmen who attained either an associate or bachelor's degree within six years of enrollment regardless of scholarship status at graduation.
- The "graduation rate with TELS intact" is defined as the percent of TELS first-time freshmen who attained either an associate or bachelor's degree within five years of enrollment without losing scholarship eligibility (having the scholarship intact in the fall semester prior to graduation). Five years is chosen for this statistic because that is the maximum number of years for which students can renew a scholarship.
- Renewal, retention, and graduation rates are attributed to the higher education sector and scholarship type at college entry.
- Percentages may not add to 100 percent due to rounding.

Privacy Notice

Throughout this report, THEC complies with Family Educational Rights and Privacy Act (FERPA) requirements to protect students' personally identifiable information. Therefore, when tables are presented, **individual cells containing five or fewer observations are suppressed**. The suppressed information is included in table totals.

¹ As of fall 2016 (the data reflected in this report), the six locally governed institutions (LGIs) were considered a part of the Tennessee Board of Regents and will be referred to as 'TBR Universities' in this report. Tennessee Education Lottery Scholarship Report

Executive Summary

- Over 120,000 students received Tennessee's Education Lottery Scholarship awards in 2015-16, totaling \$324 million in scholarship dollars. This is an increase of 15,790 students (15 percent) since 2014-15 (Table 5). This corresponds with the introduction of the Tennessee Promise and TCAT Reconnect programs.
- The number of TELS recipients (HOPE, GAMS, Aspire, Access) did not change substantially between 2014-15 and 2015-16, but the introduction of Tennessee Promise and TCAT Reconnect has led to a considerable increase in overall TELS dollars expended (Table 3).
- The HOPE Scholarship remains the most common award type (Table 3) and community colleges remain the most highly attended system among all scholarship recipients. Recipients attending TBR four-year institutions receive the greatest share of scholarship dollars (Table 5).
- The percent of first-time TELS freshmen receiving a Tennessee Student Assistance Award (TSAA) increased sharply in all systems from fall 2014 to fall 2015, increasing from 19.1 percent to 30.7 percent overall (Table 11). This increase was maintained in fall 2016.
- TELS recipient demographics remained relatively constant, with no notable shifts based on gender, ethnicity, family adjusted gross income (AGI), or Pell eligibility among first-time freshmen. Lottery scholarships are awarded at the highest rates among students who are female (57 percent), white (78 percent), and whose families AGI exceeds \$96,000 (33 percent) (Tables 9 and 10 and Figure 3).
- The GAMS and HOPE scholarships are renewed at the highest rates, 92 percent and 58 percent, respectively (Table 14). Female students renew scholarships at higher rates than males, as do white students relative to non-whites (Table 15). Scholarship renewal rates increase with ACT Composite Score and High School GPA (Tables 17).
- Students who lost scholarship eligibility during their freshman year remained enrolled most often at UT campuses (72 percent), were GAMS recipients (67 percent), or belonged to families whose AGI exceeds \$96,000 (65 percent) (Tables 18, 19, and 20).
- Students who enter college with a combination of a high GPA and ACT composite have a greater likelihood of graduating with their scholarship intact (Table 23).
- The average six-year graduation rate among TELS recipients, varies by scholarship type (initial receipt), with the overall graduation rate at 59% (Figure 7).

Section III:

Scholarship Renewal

Renewal Requirements

Tennessee Education Lottery Scholarship (TELS) recipients are evaluated for scholarship renewal after every 24 attempted credit hours. At the 24- and 48-hour check points, students must have earned a cumulative postsecondary GPA of 2.75 or higher to remain eligible for the scholarship. Upon attempting 72 credit hours, a minimum cumulative GPA of 3.0 is required to remain eligible. This continues at each subsequent 24 credit hour check point, up to 120 credit hours.

State law permits those with 72 or more credit hours to maintain eligibility if their cumulative GPA is less than 3.0, as long as they:

- have maintained a cumulative grade point average of at least 2.75;
- have earned a semester grade point average of at least 3.0 for the semester in which continuing eligibility was reviewed;
- have enrolled full-time in the semester when continuing eligibility was reviewed; and
- will enroll full-time in the subsequent semester.

The TELS award is available for up to five years, baccalaureate degree attainment, or 120 attempted credit hours, whichever comes first. The 120 hour cap is applicable only to students who first received TELS in fall 2009 and after. Students in programs requiring more than 120 credit hours are exempt from the 120 hour cap. These students can receive a scholarship until they have attempted the number of hours required to earn the degree, not to exceed 136 credit hours.

- Scholarship renewal and college retention rates are fall to fall. Retention means a student returned to a higher education institution the following fall with or without the scholarship intact.
- Students are only eligible to receive a TELS scholarship for up to 5 years or 120 hours, whichever event occurs first. As a result, for the table, retention rates are not calculated past the fifth year of enrollment.
- There are students that are still enrolled in year 6 that have not yet graduated; however, they are no longer receiving a TELS award, with the exception of lengthy degree programs.
- The graduation rates are inclusive (not additive), meaning that the six year graduation rate includes students who graduated within four or five years.

Figure 8
Scholarship Renewal, Postsecondary Retention, and Graduation Rates,
Fall 2010 First-time TELS Freshmen

- Scholarship renewal and college retention rates are fall to fall. Retention means a student returned to a higher education institution the following fall with or without the scholarship intact.
- The graduation rates are inclusive (not additive), meaning that the six year graduation rates include students that graduated within four or five years.

Explanation: This graph represents the trajectory for first-time freshman TELS recipients in fall 2010. The blue line represents the share of those FTF who renewed their scholarship each year (e.g., 56% of FTF retained their scholarship in Y2). The orange line represents the share of FTF who were retained in higher education (79% of the total fall FTF cohort were enrolled in higher education in Y2). The blue bar represents the four-year graduation rate of the total fall FTF cohort. The red bar indicates that 31% of the cohort graduated on their scholarship. The green and gray bars represent five and six year graduation rates, respectively, of the total cohort.
